SECTION- A

LONG QUESTIONS

1. Explain the meaning and concept of Educational technology in details.
2. What do you mean by Educational technology? Differentiate it from Instructional Technology.
3. Explain the importance of Educational Technology for a teacher.
4. Define the term “Educational technology” and discuss its important features and characteristics.
5. Discuss the concept, types and importance of educational technology.
6. Describe in detail the scope of educational technology.
7. Explain the concept of Educational technology with special reference to the types of Educational technology?
8. Explain hardware and software approach to education and their contribution towards effective teaching and learning.
9. “There is not only one educational technology but several educational technologies”. Discuss the statement.
10. Discuss briefly various types of Educational technology.
11. Explain the meaning and concept of Educational technology in details.
12. Explain the role of Educational technology in educational theory and practice.
13. Describe in brief the nature and characteristic of teaching.
14. What is teaching? Describe the principles of teaching with reference to their importance.
15. Explain the concept of learning with special reference to characteristics of learning.

16. Discuss the relationship between teaching and learning.

17. What is the concept of learning? Define it and describe the characteristics of learning.

18. Define teaching and discuss the relationship of teaching and learning.

19. Explain the concept of Teaching and Learning.

20. Teaching may be best defined as organization of learning. Critically discuss this statement.

21. Explain the teaching learning process. Show how it is the sharing of educative experience by the teacher as well as by the pupils.

22. Explain the concept of communication with special reference to characteristics of communication.

23. What do you mean by communication? Write about different phases of the process of communication.

24. Discuss the steps (components & elements) involve in the communication process.

25. Define communication. What are the different barriers to communication?

26. Describe the principles of effective classroom communication.

27. What is communication? Discuss in detail various principles of a good communication.

28. Explain the verbal and non-verbal communication in relation to the classroom situation with the help of examples.

29. How can you achieve effectiveness in the classroom communication? Discuss in detail.

30. Explain different modes of communication.

31. What are different barriers in communication? How can we plan possible remedial measure for effective communication?

32. As a teacher what do you like to do for bringing sufficient efficiency & effectiveness in the classroom communication?

33. What are the different types of Media? State advantages and limitations of print media.
34. State the meaning of Mass Media. What is the role of Mass Media in teaching learning process?
35. Discuss the utility of television as an effective mass media of providing education. How can a teacher utilize it more effectively for the realization of his purpose?
36. Discuss the role of computer and their networking in the field of education.
37. Discuss the role of newspaper as an effective instructional aid and mass media for being utilized in the education of masses and children.
38. What are the principles or criteria for the selection and use of multimedia approach?
39. What is internet? How can you access the internet on your PC? Discuss its educational uses.
40. What is E-mail? How can you make use of the E-mail facility on your PC? Discuss its educational uses.

**SHORT QUESTIONS**

1. Provide few definitions of the term educational technology by various authors.
2. Distinguish between hardware and software approaches.
3. Describe four objectives of educational technology
4. Explain technology in education.
5. What do you understand by technology of education?
6. Give 4 features and characteristics of educational technology.
7. Give definition of teaching.
8. What is learning?
9. Give characteristics of teaching.
10. Relationship between teaching and learning.
11. Give process of communication.
12. What is meant by effective communication?
13. Point out 3 internal and external barriers in the process of communication.
14. Discuss principles of good communication.
15. Use of radio
16. Types of classroom Problems
17. Give three purpose of using mass media in communication.
18. Role of computers and internet in communication.
19. Types of mass media.

SECTION B
LONG QUESTIONS

1. Explain the meaning and process of micro teaching? Discuss its merits and demerits.
2. Explain the concept and characteristics of micro teaching.
3. ‘Micro teaching is a scaled down encounter”. Discuss the statement and enumerate the nature and characteristics of micro teaching?
4. Micro teaching is not the real teaching but is used for developing certain teaching skills among teachers. Discuss this statement.
5. Discuss any one technique of behavior modification of teachers.
6. Which precautions should be observed in the use of Flanders’s Interaction Analysis? Mention the limitations of Flanders’s Interaction Analysis.
7. Explain the meaning of classroom interaction analysis. What is the assumption underlying interaction analysis?
8. Discuss merits and demerits of Flander’s Ten Category system?
9. Describe Flander’s Ten Category system in detail by outlining, its encoding and decoding process.
10. Describe behavior ratios and interaction variables and their use in studying teacher behavior.
11. What do you mean by classroom problem? How will you solve those problems which you may encounter in the classroom?
12. What are the different types of problems faced by a teacher in the classroom? Discuss the possible solutions to these problems.

13. What is action research? How does it differ from fundamental research? Explain the procedure of action research with the help of an example?

14. What is action research? What are its goals? Discuss steps in action research.

15. Discuss the importance of Action Research. Explain the methodology of action research.

16. What are the uses of action research for behavior modification and other functionaries?

**SHORT QUESTIONS**

1. Define microteaching?
2. Steps involved in microteaching cycle.
3. Main assumptions of micro teaching.
4. Give definition of term interaction analysis.
5. Mention 10 categories given in the flander’s interaction analysis system
7. Types of classroom problems
9. Importance of School records.
10. What is action research?
11. Discuss the importance of action research.

**SECTION C**
1. Draw out differences between organization administration and management. What are the principles of democratic management of schools?
2. “In a democratic organization, the head of the institution should realize the importance of democratic practices”. In the light of this statement, outline the relationship between the head of the institution and his colleagues.
